

Digi-Outdoor

Digi-Outdoor is specially developed for outdoor applications such as information terminal, navigation or ticket system placed in cities, public places or entertainment parks. The elegant design and technology is protected through a watertight, fully acclimatised and vandal proof casing. Every kiosk is equipped with through-glass touch screen- technology in 8mm toughened glass which makes the kiosk vandal proof. The whole front of the kiosk can open, making the kiosk extremely easy to service with access to all technical components. The kiosk can be delivered in any colours and with the possibility to place a monitor on both front and back in different height, making the kiosk children and handicap friendly. The Digi-Outdoor is available in 19", 22" and 46".

SPECIFICATIONS
